\* denotes a Members' Only Vote required

### The value of the Annual General Meeting lies in the following:

#### *Accountability*

The board of directors should report on progress made

#### *Succession*

Usually, the AGM is the time when rotation in elected leadership occurs

#### *Member Input*

An AGM should enable members to give input and direction to the board and management.

#### *Community Building*

An AGM is an ideal time to celebrate successes and build a sense of community among the members.
